LETTER OF RECOMMENDATION

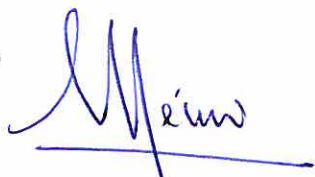

CNIM SA in France is the ultimate mother company of Curtis Door Systems Inc. and Curtis Doors Inc. both located in Plattsburgh, NY. Following the shut-down of these two companies, we decided to sell the entire contents of the building including production equipment, inventory, work in process, furniture, fixtures, office equipment, computers and various other items.

We asked Collar City Auction Realty & Management to organize, prepare and monitor this auction process. We were very impressed by their operation and some of the most noteworthy achievements were:

- The advertisement campaign including:
  - an attractive inter-active web-site which allowed on-line bidding
  - pictures, posters and the use of a local radio spot-messages
- The internal preparation including lot identification and organization on site
- The welcome of the potential buyers and registration process
- The monitoring of the bids that had been so efficient to sell close to 1,200 lots on the auction day
- The control of payments and shipping by the buyers
- The consignors' report and information that Collar City Auction's team provided to us.

We are pleased to recommend Collar City Auction Realty & Management's team to any individual or company as we have really appreciated their high level of professionalism.

Regards,

**Laurent Ménier**

Internal Audit Director
